To whom it may concern:

Michael Ponella worked for Opryland USA having played the 1st trumpet book in our "Sing, Tennessee!" production at the 1982 World's Fair. He is an excellent musician whose playing was always consistent and of the highest quality. His fine professional attitude made him a good section leader who got along well with his fellow workers. Michael was a total asset to the quality of our production and has a bright future in the professional music world. He has my highest recommendation.

Sincerely,

Stan Tucker
Assistant to the Musical Director
Conductor, "Sing, Tennessee!"
